I am aware that the choices I am going to make below (and the order I may be giving them) are extremely important as they will be taken into consideration by the Scientific Committee to assign me a mobility path for my second year. Nevertheless, I understand that the final mobility path I will be assigned might vary from the choices I have made, as it will have to comply with the choices made by other selected students, so as to have a balanced number of students at each of the partner institutions within the related Consortium.
